

Clark County Family and Children First Council Shared Plan for SFY 2020-2022

Current FCFC Initiatives: Help Me Grow Early Intervention; Family Centered Services and Supports; FCFC Service Coordination; System of Care for Multi-Need Children (Placements, Service Coordination, Day Treatment, IHBT, MH Assessments); Independent Living Transitions; Community Health Improvement Plan, Trauma Informed Care

Needs Assessment

List any community plans that were incorporated into this process. Include only those plans that are written, data informed, and have identified priorities (e.g. FCE, CCIP, United Way, MHRB plan):

1. Clark County Combined Health District – Community Health Improvement Plan
2. Youth Risk Behavior Survey

2. Identify alternative needs assessment methods or data sets that were utilized to identify the Shared Priorities:
Community Pre/Post surveys for ongoing programs – PAX Good Behavior Game, Botvin Lifeskills Prevention Program,

3. Identify any barriers experienced in this process (i.e. plan collection, availability of data, language issues, etc.):
Our main data collection resource, the YRBS- Youth Risk Behavior Survey, is conducted every other year. This presents reporting barriers for annual data. Several of our programs are new to the community and it will take a few years to identify impact.

4. Identify any successes/how this process has worked to strengthen the council and county collaboration:
Clark County FCFC has a strong, collaborative and transparent approach to community improvement. All parties want to be on the same page and work toward common goals. We use the Community Health Improvement Plan and the YRBS as our foundation and expand/promote programming that coincides with those issues/objectives.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: **Clark County youth will show a decrease in risky behaviors (such as tobacco/alcohol/drug use, early onset of sexual activity) and improve physical activity and good nutrition practices through community education and prevention efforts.**

Shared Measurement Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
<p>% of HS & MS students reporting onset of drinking alcohol, using tobacco products or vaping, smoking marijuana, or having sex before age 13(HS) age 10(MS) as reported on Youth Risk Behavior Survey</p>	<p>Data: drinking before 13- 16.4%; smoking marijuana before 13- 9.9%; having sex before 13- 4.2% (HS data) drinking before 10- 5.8%; smoking marijuana before 10- 1.2%;having sex before 10- 1.2% Year of Data: 2017</p>	<p>Data: Year of Data:</p>	
<p>Community Based or Programmatic Pre/Post Survey –Botvin Lifeskills, PAX Good Behavior Game, Girls Circle, Girls on the Run, and Get Up& Go.</p>	<p>Data: expand prevention programs locally to address risky behaviors. Year of Data: 2018</p>	<p>Data: Year of Data:</p>	
<p>% of HS & MS students who are overweight or obese through self-report on Youth Risk Behavior Survey</p>	<p>Data: 20% of males 14-18yrs reported obesity and 20% of female reported obesity. (HS) 18% of males 12-14 reported obese and 15% of females reported obese. (MS) Year of Data: 2017</p>	<p>Data: Year of Data:</p>	

1. List the data source(s) for the indicator(s):

Youth Risk Behavior Survey is conducted by Clark County Combined Health District in all city and county public high schools. YRBS was first conducted during 4th quarter 2008-2009 academic year and is repeated every two years. It is delivered to both HS and MS students county wide.

Community based program pre/post survey for Botvin Lifeskills, Girls Circle, Girls on the Run, Get Up & Go, and PAX Good Behavior Game.

2. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: **Clark County youth will have an increased knowledge of signs/symptoms of mental health crisis and where to go for help by community intervention and referral.**

Shared Measurement Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
# of teachers & school staff trained in the Good Behavior Game- a prevention model promoting self- regulation.	<p>Data:69 teachers and 4 additional staff. A total of 280 teachers /staff and classrooms throughout 12 schools are implementing this program. 59 are scheduled for training in August 2019</p> <p>Year of Data: 2018-2019 Academic Year</p>	<p>Data:</p> <p>Year of Data:</p>	
Youth Risk Behavior Survey Self Report % of HS students reporting to plan to attempt suicide in the past 12 months as reported on Youth Risk Behavior Survey	<p>Data: 17.5%</p> <p>Year of Data: 2017</p>	<p>Data:</p> <p>Year of Data:</p>	

# of people using the Crisis Text Line from Clark County zip codes.	Data: to be gathered Year of Data: CY 18	Data: Year of Data:	
---	---	------------------------	--

1. List the data source(s) for the indicator(s):

Pax Good Behavior Game data: Conducted and evaluated by Wellspring throughout the academic school year.

Youth Risk Behavior Survey is conducted by Clark County Combined Health District in all city and county public high schools. The Youth Risk Behavior Survey was initiated during 4th quarter 2008-2009 academic year and is repeated every two years. It has recently been implemented in all Middle Schools.

Crisis Text Line participation data.

2. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):
