

Fulton County Family and Children First Council Shared Plan Update for SFYs 17-19

Current FCFC Initiatives: Help Me Grow, Service Coordination, Healthy Choices Caring Communities

Were there any modifications from last year's plan? Yes X No

If yes, please identify the types of changes made by checking the appropriate boxes below:

Priorities

Outcomes

Indicators

X Strategies: Ohio State University Extension did not provide parenting classes due to a staffing issue.

1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)
Infrastructure was the only barrier due to lack of parenting classes provided.

2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.

This process brought about good discussion about needs in our county and helped us to identify areas of strengths and areas we need to improve upon. Several members of Council are currently working on the County Health Improvement Plan so they were already in the mindset of looking at areas that need improved upon in the county.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: **Increase in parent participation in parenting initiatives**

Shared Measurement Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
Percent of parents who have indicated an increase of knowledge of topics impacting their children	Data: 90% Year of Data: 2012	Data: 90% Year of Data: 2016	NC
Percent of parents that report that they are reading to children (0-5) on a regular basis	Data: 31% Year of Data: 2012	Data: 37% Year of Data: 2016	+
Percent of parents who report that they are talking with middle school aged children about internet safety	Data: 50% Year of Data: 2012	Data: 77% Year of Data: 2016	+

3. List the data source(s) for the indicator(s):

Parent survey's given at Community Conversations
Community Health Assessments release fall of 2016

4. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

The 2016 Health Status report has shown both positive and negative findings. Fulton County is currently working through the Community Health Improvement Process, with a focus on mental health, obesity and substance use.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: Increase in community knowledge of substance abuse issues

Shared Measurement Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
Percentage of 12-18 year olds who report to drinking alcohol in the past 30 days.	Data: 15% Year of Data: 2012	Data: 9% Year of Data: 2016	+
Percentage of youth who have reported using marijuana at least once in the past 30 days.	Data: 4% Year of Data: 2012	Data: 7% Year of Data: 2016	-
Percentage of youth that are current cigarette smokers	Data: 7% Year of Data: 2012	Data: 6% Year of Data: 2016	+

5. List the data source(s) for the indicator(s):

Community Health Assessments release fall of 2016

6. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

Healthy Choices Caring Communities continues to work diligently to educate our youth about the dangers of substance use and were happy with the decrease in alcohol and tobacco use, but are continuing to monitor the increase in use of marijuana.
