Indicators

Strategies

1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)  
The process is always a challenge when it requires a large amount of people taking time out of their busy and hectic work schedule. Also, having up to date useful data can be challenging when most data used is reported a year and most of the time two years in arrears. Locally we still lack a uniform mechanism to collect data that can be used to make real time informed decisions as well as compare efforts to other like counties.
  
2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.  
The process is evidence that there is a need for collaboration on a county level. This process gives all involved a clearer understanding and direction and highlights the value of working together. No one knows what is going on in their community better than those who are working in it. It is a priority to work together as a collective to address pertinent issues that span across systems within our community.

**Report on Indicator Data** (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Through the ENGAGE program requirements, agency training rosters and Council sponsored trainings.
  
6. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):  
Agencies provided the number of staff trained in Trauma Informed Care. According to data supplied, more front line workers have been trained in TIC then in the previous fiscal year.

**Report on Indicator Data** (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: **Employment Services for transition-aged youth and young adults**

Shared Measurement Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
<b>Number of youth in Service Coordination/Wraparound that participate in job placement programs (WIA, Voc. Rehab)</b>	Data: 5 Year of Data: 2016	Data: 4 Year of Data: 2017	-
	Data: Year of Data:	Data: Year of Data:	
	Data: Year of Data:	Data: Year of Data:	

7. List the data source(s) for the indicator(s):  
JFS employment rates for youth involved in SC/Wraparound, Voc. Rehab employment rates
  
8. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):  
Baseline is 5 youth that participated in the WIA program in 2016. In SFY 2017, four youth participated in the WIA program however, there are 4 other youth employed in the community but is not a part of the WIA program. For future reporting purposes, Council will track the number of youth within the age range; it varies from year to year skewing data when considering the direction of change.
