

# Jefferson County Family and Children First Council Shared Plan Update for SFYs 17-19

## Current FCFC Initiatives:

**Were there any modifications from last year's plan? Yes**

**If yes, please identify the types of changes made by checking the appropriate boxes below:**

x Priorities: The Council agreed that we met the Trauma Informed Care priority and have discontinued the goal

**1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)**

In 2017 our priority was trauma informed care. Coleman Professional Services staff provided two trainings in Jefferson County. 13 agencies reported at least 2 members attended 3 agencies reported that no staff have attended. It was decided that since the majority of the agencies reported attendance and 2 sessions were offered that this goal would be discontinued

**2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.**

By attending trainings the Council members built relationships

**Report on Indicator Data** (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

**Were there any modifications from last year’s plan? Yes**

**If yes, please identify the types of changes made by checking the appropriate boxes below:**

1. Priorities: Increase drug use is being seen in our county so this remains a priority to
2. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)  
It was a slow start to get the committee organized. It was decided to combine with another group who was meeting quarterly. The UPP meetings are reporting their work and progress at the FCFC meetings. Minutes are being emailed to the council members
3. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.  
Increased awareness to all council members about substance abuse has been noted. The Mental Health and Prevention Board has now formed a Opioid Task force

**Were there any modifications from last year’s plan? Yes**

**If yes, please identify the types of changes made by checking the appropriate boxes below:**

1. Priorities: Need for housing after being in residential care continues to be a priority
  
3. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.) Slow start in getting the committee formed. A residential strategic planning meeting was held in March then nothing else was accomplished
  
4. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration. The Council agreed that this was a priority and that we wanted to keep it in the Shared Plan. And while nothing much was accomplished in the past year there are some opportunities for collaboration being discussed now. Coleman had a building donated and are asking for ideas how to use it. Village Network was awarded a grant for residential housing assistance thru DJFS and this should develop more in 2018
