Were there any modifications from last year's plan? Yes                      No **X**

If yes, please identify the types of changes made by checking the appropriate boxes below:

**Priorities**

**Outcomes**

**Indicators**

**Strategies**

**1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)**

Data collection is still not as strong as the Council needs to support effective decision-making. Technical assistance in data collection was included in the Strong Families, Safe Communities grant which was funded. These funds will help the community track and analyze data more effectively.

**2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.**

The community has reinvigorated high-fidelity wraparound and has trained 6 facilitators. The Strong Families, Safe Communities grant has a full-time wraparound coordinator position which will help us be more effective. PAX is now in 125 classrooms!
